

- (Feb. 1) man might crawl in some distance further. The legend about this hold has spread throughout the whole of Nubia.

[GE note: Next entry in different handwriting. Dunham?]

Wednesday

Feb. 2

9th day Work on (1) IX, (2) X, (3) XI, (4) XXI, (5) Temple 100.

- (1) Work continued looking for entrance stair of IX without success. Clearing sand to S of S face ca. 10-15 m out. (Corresponding to location of stair to X).
- (2) Entrance found S. of S face of X. The N end of stair shaft is ca. 10 meters S. of the pyr. face. Cleared down about three meters at N end; length of stair not yet clear. The filling a hard gray sandstone debris, tightly packed (unplundered?).
- (3) Work continued on stair of XI. The steps being cleared to within about 4 m. of the deep end, in hard debris. Also work on SW corner of pyr. exposing the corner with core(?) facing in place. Working east along S face of Pyramid to W corner of chapel.
