

March 24
5-3

the floor, was found on (H13) 212
five small Osiris figures, each
cut in bronze strip.

Under the S. side of
703 are parts of two
walls of red sandstone.
(no same width.)

There was revealed in
cleaning the intrusive
trench on the S. side

of 703. In the trench, a large unbroken
block of stone. Under this block, potsherds

fragments and a mud figure of a ram (broken
incomplete).

The fallen columns in 703
all had the name of Atlanessa.
There are also five or six blocks
with crude hieroglyphics in relief
(background colored blue), of which
one frag. has the name of Atlanessa.
