- ③. After measuring trench A this morning with theodolite and steel tapes, and taking the levels, started removing the layer of debris under the "upper floor".

Very anxious about safety of the trench lines owing to great German offensive.

Germans announce new phase of submarine campaign — orders to sink every armed merchantman at sight (i.e. all merchantmen). I suppose we shall now have another shameful exhibition of the crawfish and the crab walk by Mr. Wilson.

Thursday
March 2
34th
working
day.

Work on ① Bldg 200; ② Bldg 500, D;

③ Bldg 501 A; ④ Well in Temple of Scharka at Merne.

- ① Bldg 700, reached ^{marked by color} floor level, but floor not preserved. Entering Room B. Breaking fuller bricks over back part. Clearing away top debris → S in front of 200 & 600.

- ② Bldg 500, trench 2. Continued around the back end of the temple
