particular.

1888
(90)

Structure of debris containing corner
molding as if pylon. The well
formed surface. The work now
proceeding is the clearing of this surface
working towards the "Setel B."

(2) The "bank of debris" ^{between} ~~is~~ of 200
and 900 is now removed. The
clearing of 900 back soon continues.
One col. in position. The N wall
has been rebuilt or rather covered
by a better wall.
