

(Jan. 23) The after two cylinders of the launch went out of action about 100 yards from the Kirbekan.

Monday

Jan 24

1st day

of work

Work began at Gebel Barkal this morning at Pyramid X⁽¹⁾, XI⁽²⁾, XVI⁽³⁾, and⁽⁴⁾ at point W of First Pylon of Great Temple aa (AA). See next page (p. 49).

(1) Pyramid X (Cailliaud, Pyramid h) is represented by Cailliaud Voyage à Meroe pl. LVII (on right) as having the casing still in place ca. 3/5 original height on the N and E.

[DRAWINGS]

Now no casing is visible; only the core filling (rubble and red sandst. debris) rises to a height of ca. 4 meters on E side

[DRAWING]

We cleared away fallen debris on
