

(Feb. 9) surface of decay.

In trench B, we came on a burnt brick circular structure filled with brown earth, a well or an oven.

General: A dust storm came up suddenly about 7:30 and blew all day. Made work very disagreeable but did not stop us. Dunham worked on Gamai Diary: I measured up chambers of XIV and XV.

[different handwriting]

Thursday

Feb. 10th

16th day.

Work on (1) IX, (2) X, (3) XI, (4) XIII, (5) XVIII, (6) XXIII, (7) XXIV, (8) Building 100, (9) A, (10) B.

(1) Clearing chamber of Pyr. IX.

(2) Clearing chamber of Pyr. X.

(3) Clearing chamber of Pyr. XI. There are three rooms as in Pyr. XV. The upper parts of the first two have been cleared leaving the debris just above the floor for later clearing. The third & inner room has been only partly cleared so far, but shows the usual bench for the burial, with niche in center of back wall. The upper part of this last room was clear, the drift sand having filled it level with the top of the door, but no higher.
