(21)

(6)

Building 500 trench A and Aa cleared westward enlarging trench A about 200 cm.
The heavy upper floor continues.

[DRAWING]

In clearing the statues 1, 2 for photography a frag. of a third (3) appeared, yesterday evening. This morning, two more were uncovered (4 and 5) with a head (1) which seems to belong to statue (3) and two frags which may belong to some of the others. This afternoon a second head was found under the unbroken upper floor (perhaps belongs to statue nr. 2).

Statue 2, is of Taharka. The upper part is still invisible under the upper floor. On the belt in front [DRAWING: hieroglyphs]. On the back
