The one large pyramid is about the size of Barkol II. The pyramids are not on very high ground and the chambers have probably been affected by moisture. The rock looks bad.

Returning to Sheikh's house, saw some of the walls and mud brick walls in edge of cultivated land - perhaps same date as pyrs. Floor about 90-100 cm below surface. tops of walls ca 30-40 below surface.

Beggar girl - wandering as a result of recent famine at Helba. None dancing. Beffer flavoured with cloves at Amdeh's house and also milk, sugar and tea. Distribution of cloths to dancers, and money and biscuits.

Walked back to boat. Amdeh seen to have us work pyramids. Invited him to see work at Barkol
