

(Jan. 25) appears well marked. On the south is a stairway, cut in the grey sandstone, descending to the north.

In the debris was found a white scarab with traces of green-blue in the hollows.

[DRAWING]

(5) Work continued on the small temple at a a.

[DRAWING]

Wednesday

Jan. 26

Boxes (6) and tents arrived about 10 a.m. Number of locals 103

Work on (1) IX (2) XI (3) XIII (4) XV (5) XVII and (6) Temple a a.

(1) The Pyramid IX was cleared this differs slightly from the others, being built of local white sandstone [N.B. the local sandstone is white but large areas of considerable thickness have been stained red by some iron or manganese oxide].
