brick vaults and also stone lined graves.

[DRAWING]

The pot sherds of the sebah heaps are clearly very late (Christian).

The back wall of the town [XXX??] a ravine or water course which runs down from the desert. To relieve the pressure of water on the town wall, a trench (5) has been cut in the sandstone to carry the water around the downstream part.

[DRAWING]

In the Turkish wall are several inscribed stones (copied by Breasted)—relief like Pyr. reliefs; inscript. like Taharka Temple inscr.

Afterwards went to Kegebi where above the quarries, there is a curious
