234

Clearing the G. part of 900, and tracing
the foundations of the well-built stone
building. Letting out all decayed
masonry, for these parts obscure the
lines.

Clearing the forward part of 800.

In room 801, came on a granite
head, lying face up.

Unfortunately the surfaces, especially chin
mouth and nose, are crumbling to pieces
as only granite can crumble.

- ⑤ At Nuri App. VIII found chapel and
stair on the gebel side (i.e. SE).
Thus although the pyramids are
