

(Feb. 13) ⑧. At B. Clearing well, now a meter
or so below water level. We intend to
use the well for water for washing
and photo. purposes.

Monday
Feb. 14

Day of rest for now.

Mail day. Liang to Drummond
and copy to P. Camp.

Cleaned out magazines here. One
white tent ruined by white ants, another
damaged. Jams all dried up.
Probably useable but Mrs. R. has
ordered them thrown away. We have
found none of the stores good, except
possibly the flour.

Early this morning rode out over
Suffith's excavations here. Saw the
places where the Governor has worked.
The "market place" looks very late in date.
⑧ See especially the groups of columns.
