

(March 16)

(46) 3. is a fine headless statuette. On belt, two cartouches: the left one [DRAWING: hieroglyphs]: the right one erased.⁵¹ Thus the statuette is apparently reused.

Clearing room 703. Reused blocks in the wall. It appears as if the room built by Senka Amun seken or Altanersa [sic] was destroyed by a fall of stone and rebuilt considerably later only to be buried by a second fall of stone. The statuettes etc in 704 were set there long after the time of Altanersa. The sandstone statue (wrecked) looks about same age as Barkal pyramids.

(2) Clearing 900. Reused stones with good reliefs & walls.

(3) Clearing rooms G-side of 500 A.

(4) Cleaning out floors of Bldg 100. Rooms 123, 116, 114, 115. Just below foundations of 100, mud brick walls, are appearing.

(5) Merowe Temple—brick foundation wall.
