

Thursday
March 9
40 ~~45~~
working
day

177
Work on: ① Bldg. 700; ② Trench A
of 500; ③ Trench E of 500; ④ Mene Temple

① Building 700, working on back,
heating and removing stone.

Excavating riverwards along "Street"
cutting through the bank of debris.

② At 500 A fixed points 0502
and 0503 and measured foundation of
pylon etc. Had greater part of the
debris (debris of decay) overlying lowest floor
carried out.

③ Continued work on 500 E.

④. Cleared back wall of Mene
Temple. Mud brick wall extend
~~for~~ all around as far as cleared.

Mr. & Mrs. Comport went to
Tangassari to examine the antiquities.
A sent Lsit on arrival. Mr. Comport
reported large mounds - 20-30 meters
across and 10 meters high - and
small pebble covered mounds. Reminds
me of Samai. Potsherds in debris
