

(March 31)

[59]

of rubbish as would happen at a great clearing previous to the restoration of the temple.

- (3) Clearing space in front of 600. The circular wall which seemed to be a well proves not to be a well.

[DRAWING]

The drift dirt was penetrated at one point by a smaller vertical hole but otherwise lay undisturbed under the late wall on the surface. The surface wall cannot be connected at present with any building owing to the general denudation by sebahhin, the wall is on a [XXX?] high in the air above all adjacent walls.

- (4) Work on Pyr. I, V and VIII at Nuri

Saturday

April 1

60th

day

Work on (1) 700 (2) 600 (3) front of 600 (4) 800-900 (5) Nuri

- (1) Clearing back of 700 on D. side. [insertion from below]: Examined GU corner of 700 sub 1 but found no foundation deposit. Two undatable potsherds.

- (2) Examined GD corner of 600 but found no foundation deposit.
