

(March 29)
(57)

- (6) Work on Pyr. I and V at Nuri. No trace of chapel walls as yet but the foundation of the pyr. casing has been cleared.

Thursday
March 30
58th day

Work on (1) 700 (2) 800 and 900 (3) 500 G (4) Nuri

- (1) Clearing back of 700 (G. side) and clearing beside pylon on D. side.

Have carried the excavations of the foundation trench of 700 (U side) in back to base of wall.

[DRAWING]

At GU corner at bottom of foundation trench cut away gebel and descended below foundations. [DRAWING] Under cut corner stone of foundations and came on a cavity filled with loose [XX?] in which was found scattered a foundation deposit of Atlanersa. The deposit has manifestly been disturbed, perhaps during the rebuilding of the temple.
