Building 500 Trench D.

156
55

We are only clearing the outside of the wall at present. The only fact of interest is that the walls are founded on sandstone and ~~are~~ are only ca. 50 cm high.

- ⑤ Bldg 500, Trench A. Still clearing front of Pylon (where the work is very ^{packed mass of} slow on account of fallen stones) and debris above floor along wall NW of Pylon. Enlarged the hole in which the statues lie by breaking out about 1 meter of "upper floor" on the SW. The Taherka statue is headless (as expected). The grey granite statue is inscribed but it
