

(Jan. 25) traced. It is built of red sandstone, while the filling is broken r.s.<sup>9</sup> and sand

[DRAWING]

Among the stones taken out of the fallen debris around the pyr., were several casing blocks indicating the same type of casing as in the N. group.

[DRAWING]

Some stones were marked with incised lines (mostly not casing stones).

[DRAWING]

---

<sup>9</sup> Red sandstone.
