of sand and white pebbles.

This conglomerate is brittle and easily broken up decomposes, and its decomposition over much of the area has yielded the covering of white pebbles.

The ground where our debris is thrown has been nevertheless carefully trenched to make certain that it is "gabel."

~~Thurs Jan 25~~

The Egyptians are divided into four gangs, — one on X, two on XI ~~and~~ one on XVI. Selected gang as a a. Locals about 35 in number.

Wages $1\frac{1}{2}$ to 2 per day, to be increased to $2\frac{1}{2}$ or 3 according to efficiency.

Green Jackson named $1\frac{1}{2}$ to $2\frac{1}{2}$ as the local rate.
