day
of
work

Work on ① Misc. clearing at (177)
Barkal 500, 800, 600 ② Barkal
XVI ③ Barkal VIII ④ Nuri

①. Clearing walls, joints etc. for
survey.

②. Clear Barkal XVI. The stair and
chamber or type
of small pyramid
is as an exception
under the pyramid
itself, while XXII
in fact has no
pyr. preserved.

(a) either stair XVI is older than
the pyr. XVI ~~and~~ (XXII is ~~also~~
in that case the stairs XVI)

(b) or pyr. XVI was contrary to
rule built after the burial in
stair XVI (XXII is in that case
the stair to a destroyed pyr.).
I personally favor (b).

③. Clearing Barkal VIII the same
and third room. In both these
the roof has fallen; and the
work now makes a great dome
over each room. The floor and
the mustata were covered with
about 20 cm of dust stained
