

(Feb. 10<sup>th</sup>)

(3 cont.)

[DRAWING]

- (4) Work continued clearing chamber of Pyr. XIII.
- (5) Finished clearing stairway to Pyr. XVIII. The usual type; low door at the deep end filled with laminated drift sand.
- (6) Finished clearing stair of Pyr. XXIII. The pyramid has completely disappeared, but the approach stair is of the usual type. Door filled with drift (plundered).
- (7) Work looking for entrance to Pyr. XXIV to the S. of its south face (river side). No success as yet. The ground very uneven.
- (8) Work proceeded on building 100, Western portion. Room 122 cleared, and found to lead into a smaller room to the north (124).
- (9) Work continued on trench A, east of the 1<sup>st</sup> Pylon of the Gt. Temple. Found the lower leg of a statue (ca. life size) in black granite. Also part of a gold ornament
