

(April 15)  
(72)

29 model bowls [DRAWING] same brown ware.

Also several lumps of mud and frag [XXX??] of decaued wood (handles?).

The objects are dumped in the hole—not laid out in order. No inscription is visible on any of the objects. The bronzes might be XVIIIth dyn., but the pottery looks later (ca XXth). However the material is scanty, and the conclusion must be used with caution.

(4)

Continued work at Nuri, clearing U. face of Pyr. VIII, caved-in hole in front of chapel.

Sunday  
April 16  
73 day  
of work

Work on (1) Front of 900; (2) 500 (3) Nuri.

(1)

Clearing out —→ rooms R from 905 came on a red (sand) floor about 30 cm down. In the decayed mud-brick above this, some fai. vessels [DRAWING] and two late scarabs, bit of gold wire, bronze nails, etc.

(2)

Clearing 503. Debris as before, the earlier walls cannot be reconstructed until
