Barkal VIII

- (1) B 300
Jan 30. Having large gang from 1200 added about 10 am to usual gang at 300, stripped desert over a large area on the site of the front of the old temple. Also cleared greater part of hole on "S" of B300 old[?] over which the "S" wall of Tirhaqa's 300 must have passed. Also clearing "E" and of B 302 (Tir.) Here was the back upper edge of a granite stela.

[Drawing]

The fragment has been battered and the back (fracture) has been used as a rubbing surface (smoothing a wall ?). The rest of the stela can hardly be found here. (From Piankhy stela ? ll. 37-41 and 80-83?)

- (2) B 502 EX "S" Continued trench along "S" side of great
Jan. 30 pit.
- (3) B 503 EX "N" Cleared area "N" of pylon III and advanced
Jan. 30 into area B 502 EX "N".
- (4) B 1200
Jan 30. Clearing room 1233 found a number of frags of painted cols. etc. One stone is inscribed [Drawing] Anlaman (Nuri VI).
