

Tuesday, Feb. 4
37th day of work

Locals, --

Day of rest at Kurru

Work on, -- (1) B 501
(2) B 502 EX "S"
(3) B 502 EX "N"
(4) B 502
(5) B 503
(6) B 1200
(7) Kurru

(1) B 501 In 501 sect I7, reached a later floor
Feb. 4 with 2 pots set in it.

[Drawing]

About noon cleared back over Meroitic floor to doorway 502 and began clearing section 501 I 4 in order to disengage late door-jambs which cover inscriptions.

(2) B 502 EX "S" Continued following "W" side of
Feb. 4 mud pit and now about ½ way across to "N".

(3) B 502 EX "N" Clear the gravel surface from W of doorway
Feb. 4 back to pylon III and began on a parallel strip alongside this on "N" in order to free construction slope of well B 1000. Came on a paved floor (temple destroyed?) about sunset. A loose block =
in view of change of camp [Drawing: hieroglyphs]
ordered this work stopped
in order to concentrate of [sic: on] B 502 and B 1200.

(4) B 501 Removed the two large fragments of
Feb. 4 the black granite statue of [Drawing: hieroglyphs] lying in 502 II 4 "S" edge. The basis was partly higher than pavement No. IV (last) and rest was below but above pavement No. II. The two large pieces do not fit.
Continued examination of lower deposits in III and IV 5-6.
