

Jan 25

1916

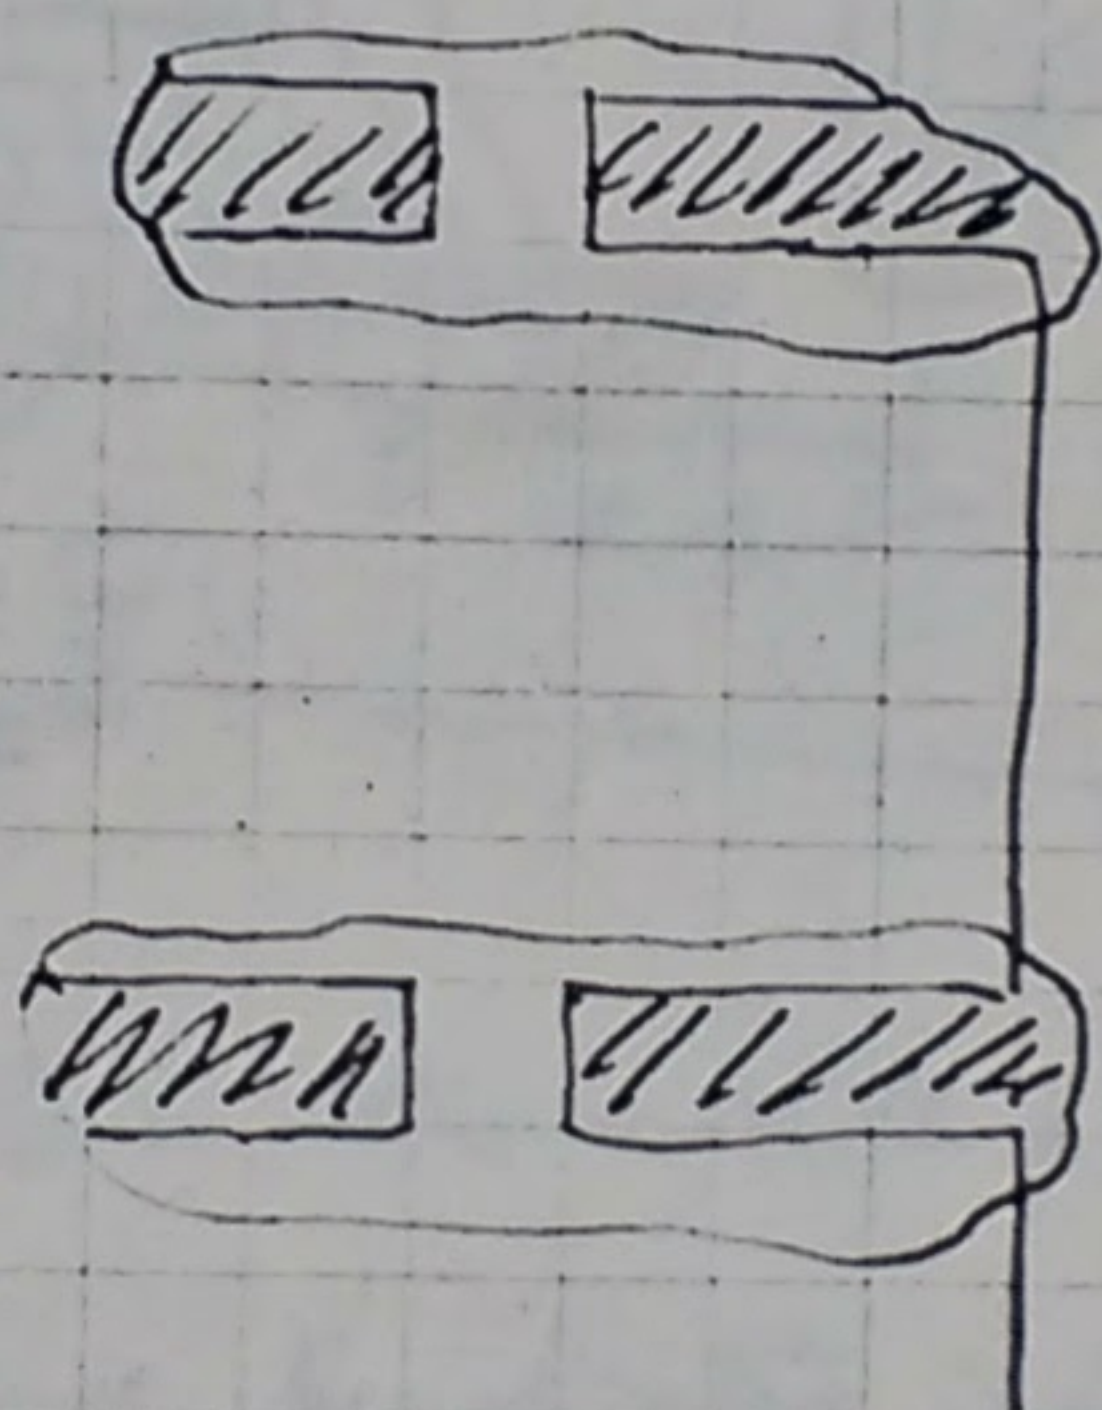

appears well marked. On the south is ⁵⁸57
a stairway, cut in the grey sandstone,
descending to the north.

In the debris was found a white
searab with traces of green-blue in the hollows.

(5) Work continued on the small temple

at aa.

Wednesday
Jan. 26.

Boats (6) and tents arrived about
10 a.m. Number of boats 103.

Work on (1) IX - (2) XI - (3) XVII and
(4) Temple aa. (3) XIII (4) XV

(1) The Pyramid IX was cleared. This
differs slightly from the others, being
built of local white sandstone. [N.B. The
local sandstone is white ~~to~~ but large
areas of considerable thickness have
been stained red by some iron or manganese
oxide.]
