Work on (1) 800 pylon (2) 1000 (3) 506-520 and U. of 504. (4) Nuri

(1) Cleared D. side of 800 pylon.

[DRAWING]

↑ R the river side of the pylon has been rebuilt later masonry/debris/older masonry

The pylon appears much too long.

The D. end may be part of another structure.

(2) In the great well 1000, reached water, got about 80 cm below it and had to stop.  
The lining appears
