to go on down. A break in the wall on the R. side appears to mark a stairway: (461)
260

- ③ Leaving 506 to 520 and on the N. side of 504. The evidences of the plan of the older building became clearer. Very little is found in the debris, - frag. of stucco, fai., potsherds (some extremely late (Christian). In 514, frag. of an obelisk.

- ④ At Nari, found work in VIII brought to a standstill. The roof of the first room was found to have collapsed, ^{entirely} Thus the fact that we found the room filled to the roof was explained. The ends of the walls (N and S) and the walls beside the door are indented. It ~~is~~ ^{is} necessary to go down ^{to the chapel} from above. On the E side of the chapel ~~there was a~~ I had observed a hole filled with drift dirt, but had assumed that it was shallow. In view of the present development, it now seems clear that this hole
