

(April 20)

(75)

cups. At + was a bronze cup on bk debris. At + (in circle) a bronze Osiris figure and a bronze bowl on bk debris.

Rooms A and B were full of drift sand to top of doors. In C the drift sloped back from top of door to above mastaba. Roof in B fell anciently: roof in C fell after we opened the place and before we excavated it.

[DRAWING]

--30 cm of sand

--15 cm of black containing objects

--mastaba

(4)

Dunham and I removed the objects in VIII A at Nuri. During the morning, men were clearing Pyr. VII and XVI superstructures. In the afternoon they worked filling VIII A with dry sand (from the sand dune on R. side of VII and VIII). This will prevent any fall of rock or other damage to the room below.
