Moreover, the superstructure does not coincide with the foundation lines.

[DRAWING]

The cols are founded are big circular blocks but are not well centered thereon

[DRAWING]

--foundation disc.

--basis

--roughened as if the basis had originally borne a larger col.

--col.

Between the two G-side cols., is a square altar (uninscribed) built of masonry.

(2)

At 900, clearing to the U. side. E.C. cutting away the adjacent bank of debris. Here opposite the
