

(Monot 26)
55-

and stone thresholds that (12+200) there is no hope of finding any objects but I think we may measure the order of the walls, probably their respective dates, and partial plans of the original buildings. The area will then ~~from~~ become available as a dumping ground for work next year.

- ⑤ The lower stone pavement in 500A, is made of stones $26 \pm \times 52 \pm$ cm (i.e. $\frac{1}{2}$ Egypt. ell by 1 Egypt. ell). and are both white and yellow sandstone. Thus the type of

masonry etc., is exactly like that of the room 700 sub.

These belong

to one of the early periods and are undoubtedly contemporaneous.

- ⑥ Work on 100 sub.
⑦ Work on Pqr. I and V at Nuri.
Our hope of finding information in the chapel appears to be vain.
