former excavation.

In the chamber, we
found some pithoi
and a scarab.

④

cleared chamber of XIX - Very small

but has characteristic niche at back.
The size of the chamber evidently led the
thieves to suspect another chamber and to
break the "hole" to find it. Perhaps
the second lot of thieves.

⑤

At the valley end of one of the
low ridges south of the py. group
IX-XV, observing a mass of pithoi and
