

(March 15)

(45) portico.

[DRAWING]

stratum of debris containing corner molding as of pylon. Has well formed surface. The work now proceeding is the clearing of this surface working towards the "Gebel B."

(2) The "bank of debris" between 200 and 900 is now removed*

* near wall of 900, frag. from waist of fine seated private statuette.

The clearing of 900 back room continues. One col. in position. The N wall has been built or rather covered by a later wall [?].

(3) Still clearing eastern stone pavement in 500 A and also outside of enclosing wall.

(4) Worked on 500 E until about 11 am,
