Left at 7:45 for Barkal. Mr. & Mrs. Crowfoot, Mrs. Reisner, Mary, Miss Markel, came with us (i.e. Dunham & myself). Took out the frags. of statues from Trench A of Bldg. 500, beginning with smaller fragments.

Head no. 2 belongs to statue no. 1 (Aspalut). Two other pieces (arm lying beside Taharka statue and shoulder under No. 6) fit on the Aspalaut statue making it practically complete.

Head no. 1 of grey granit and some other frags. (beside Taharka and under No. [XX?]) belong to statue no. 5). The statue is not complete, notably the chin is missing. We were not able to turn No. 5 over until No. 4 is moved. Therefore the name is not yet completely clear [DRAWING: Hieroglyphs].
