(4)

Work continued clearing chamber of Pyr. XIV.

(5)

Finished clearing stairway to Pyr. XVII. The usual type; low door at the deep end filled with laminated drift sand.

(6)

Finished clearing stair of Pyr. XXIII. The pyramid has completely disappeared, but the approach stair is of the usual type. Door filled with drift (Plundered).

(7)

Work looking for entrance to Pyr. XXIV to the S. of its south face (ruined side). No success as yet. The ground very uneven.

(8)

Work proceeded on building 100, Western portion. Room 122 cleared and found to lead into a smaller room to the north (124).

(9)

Work continued on trench A, east of the 1st Rylou of the Gt. Temple. Found the lower leg of a statue (ca life size) in black granite. Also part of a gold ornament
