

March 12
43

back wall crushed by fall
of cliff. Space contains much
black dirt.

184

(86)

This sudden ending, lessens greatly the
task of clearing the temple.

- ②. Clearing floor of Bldg 600, adjacent
to the N. The room in which we
are working is beside the back part of
700. The floor is at least 2 meters
higher than the floor of 700. Again
the work in sight becomes lessened.

- ③. The street ends under a later
cross wall and could not be picked
up beyond it.
