Work on (1) U. side of 900. (2) 1000 (3) 500 G end (4) Nuri

(1) Clearing bank of debris on U. side of 900

(2) Nearing water in great well (1000).

(3) Clearing the whole gebel end of 500 (rooms 507, 508, 515-520). The debris has been turned over and over many times so that all evidences contained in the deposition of the debris has, as usual at this site, been destroyed. There seem to be at least three distinct building periods shown in the wall—two in the fine grey masonry and one in red masonry. Frags. of the Taharka altar were found.

(4) Nuri. Finished clearing stairway, Finished clearing D. side of pyr. VIII. Turned the men on the chapel of Pyr. VII. The stair of VII is filled with sand showing that it is even worse plundered than pyr. VIII.
