20th
day

Orinham and I reached work about 11:2
14

8:30 am. I worked on survey: he measured
chambers of IX and X. Lunch in big tent.
Started from upper works at 3 but delayed
by (5) and (7) below. Reached house at
5:10.

Work on ① Pyramid XI ② Pyr. XII
③ Pyr. & chambers of XVII. ④ chamber of
XIX. ⑤ Cem. 2000. ⑥ Temple of Mut (Building
300. ⑦ Trench A at Great Temple (Building
500).

①. Still clearing the W and N faces of
Pyr. XI. ~~The middle of the~~ AT the
N end of the W face, the enclosing wall
is preserved to the height of another course

Thus it is clear that this
wall ~~was~~ ^{had} actually con-
fined the floor = temple floor

enclosing wall built as the retaining wall
of the platform.

② Clearing W and N faces of Pyr. XII

③ Cleared all faces of Pyr. XVIII,
Core only preserved. Remains of chapel
