

March 19

48.

⑤

Diaries exhausted,
not replaced since
war.

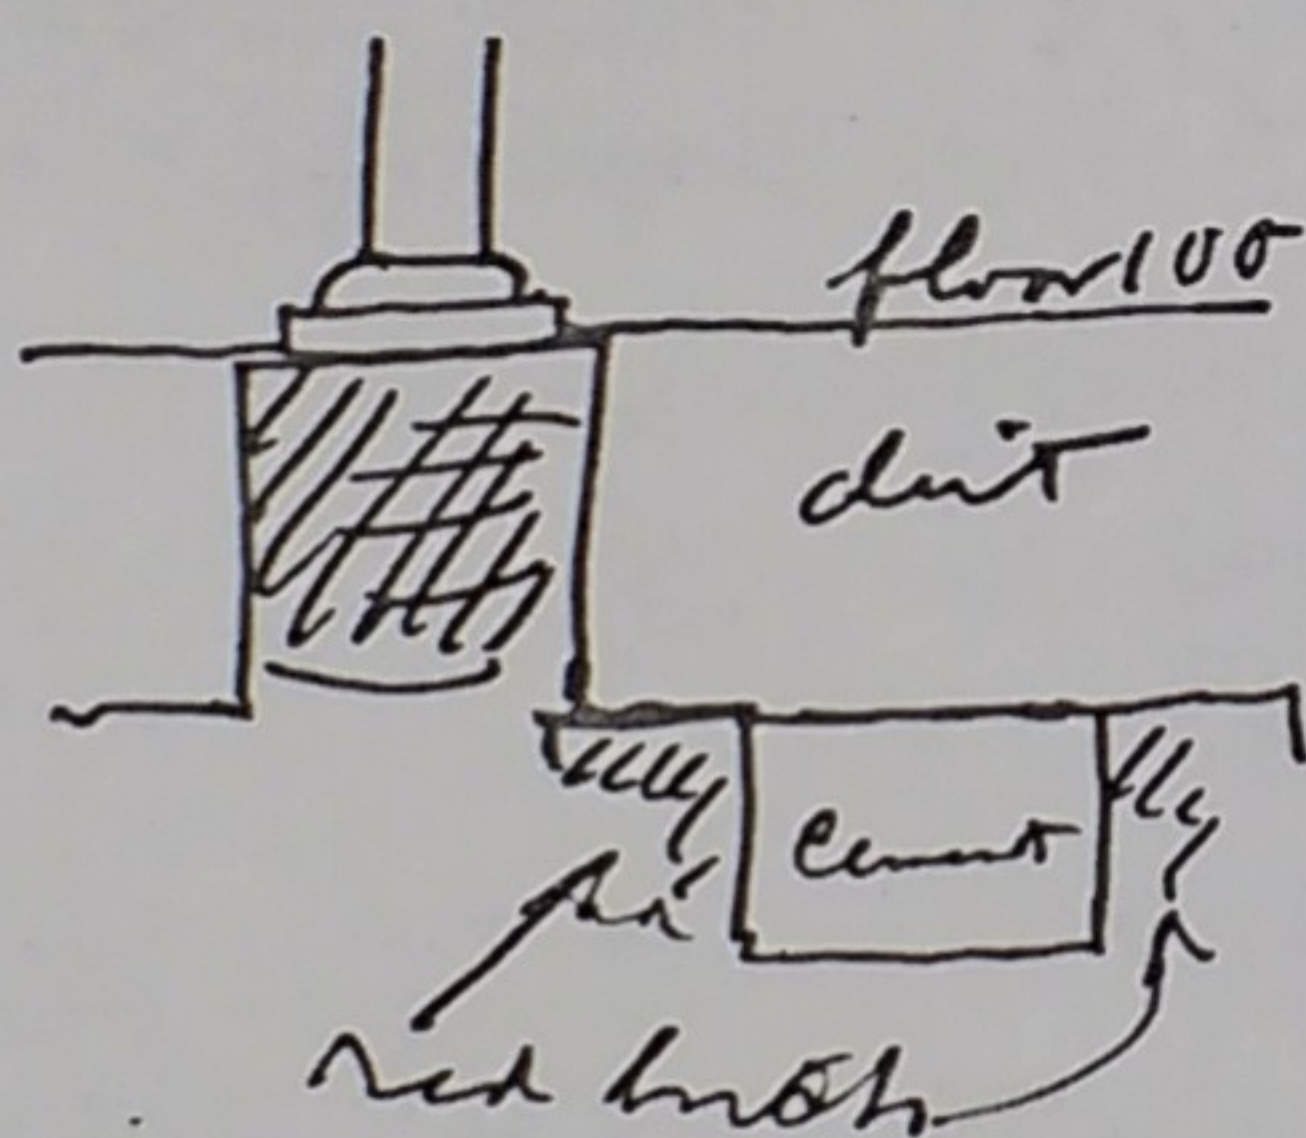

⑥

Trench 500 F. continued (103)
201
Clearing room foundations.

Blky 100 sub. Descending below
floor in rooms 108, 114, 105.

In 133-134, ~~the~~ 110, there is a
hard red floor at about 40 cm
below living floor of 108.

In 108, the columns are founded
on pillars of burnt bricks

In the S.E. quarter
of 108 there are
well built cement
red brick walls
below the level
of the foundations.

The bases of the sub-walls are
so low that it does not
seem possible there can be
any other building below
them (i.e. wall to below high
side level).

- ⑦ Working out mud-foundations of Mamm
Temple.
