

(April 12)
69

descends to the chamber and (162)
is either natural or dug by 261
a second set of plunderers.

Perhaps the caving in of the
roof left a hole ~~off~~ above which
attracted the ^{attention of the} second set of
plunderers and led them to
descend through the caved in hole.
Ordered the men to clear out the
drift dirt in front of the chapel

assumed condition of interior
judging by surface above and
by debris in doorway.

Pp. VII stair seems completely plundered
to show the chamber to be
