

(Jan. 24) steps in the lower part, led down northwards to a burial chamber (not yet excavated).

[DRAWING]

In the debris in the stairway, were frags. of R.P. Meroitic bowls [drawing: pyramid] of thin blown glass bottle, and a piece of decayed wood with bronze pin.

I see no reason why all these Meroitic pyramids should not be of this type. They are probably all plundered in ancient times.
