

(April 8)

(66)

was originally blocked with stones, roughly laid, and the thieves had broken through the upper part.

[DRAWING]

--poor grey stone

--chamber

--thieves shaft

--filling of stair

--bronze basin (broken)

--bronze platter

On the stair (deposited before filling) there were on each step from the 12-21st from above two menats [DRAWING] of blue fai. and some beads on each end of the step. On the 1-3 stair from below a bronze basin, crushed by weight of filling. On the floor before the door, a large sanîah bronze (d. 135 cm) [DRAWING]. The frags. of ushebti, alab. etc. were in the debris of the thieves hole.
