

(Feb. 26)

(30)

the bank of debris, well inside the line of the Temple (700) but has revealed no walls.

[DRAWING]

Trench d' is being enlarged into the excavation of Temple 700. One of the large gangs from the Pyr. field has been put on the spot and we have now cleared the outside of a wall which has a jut out. The S. end of the wall bears the bases of two cols. in line with the columns about the statue excavated by Dr. Budge.

(5)

The search for a dump at X meets with difficulties as traces of buildings have been encountered. An area about [DRAWING] six by four meters has been found however
