It will be of considerable interest
if we can get evidences of the dates of
the various restorations.

Going on the ground W. of the Temple (500)
with Said, saw clear evidences of
recent sebah digging (just before we
arrived). ~~Arranged for~~ These
excavated areas lighten the task of finding
a dumping place. I selected an excavated
spot near the S end of Bldg. 600, near
the granite ^{mudlith} ~~stela~~ of Atlanersa (CIVIL),
for (preliminary examination) to examining
this part of 600.
