

(Pt. 3)

③.

1916

Work on stairway of XI approaching ⁸⁴ 80
downway. Now taking out the red
drift sand of the plundered hole.
The work on the superstructures shows the
encasing wall spoken of by Leatland.

The original casing wall of the pyr. is
partly preserved on the S & ^W faces
but the corner is gone. Part of the
temple walls are preserved but no
reliefs or inscriptions have been found.

④

Stairway of destroyed pyr. XXV and the
chamber have been cleared. Only few
frag. R.W. potshards. Single chamber
